PROFESSIONAL SUMMARY

Results-driven Senior IT Analyst & Data Engineer with 6+ years of experience delivering data-driven solutions across EdTech, AI, and IT services. Expert in Power BI, Microsoft Fabric, SQL, Python, and cloud platforms (AWS, Azure, GCP). Proven ability to design end-to-end ELT pipelines, enterprise BI dashboards, and AI/agentic automation workflows using n8n, CrewAI, and LangChain. Holds a Minor in Artificial Intelligence from IIT Ropar. Adept at translating complex business requirements into scalable data products and actionable insights — combining technical depth with strong stakeholder communication and cross-functional leadership.

CORE COMPETENCIES

Data Analysis & BI: Power BI, DAX, Microsoft Fabric, OneLake, Tableau, Google Looker Studio, Advanced Data Visualization, KPI Design, Time Intelligence

Data Engineering: SQL, Python, ETL/ELT Pipelines, Azure SQL, Databricks, Data Modeling, API Integration, Data Cleaning & Transformation

Business Analysis: Requirements Gathering, Stakeholder Management, Process Mapping, SLA Reporting, Operational Analytics, Root Cause Analysis

AI & Automation: n8n, CrewAI, LangChain, Microsoft Copilot, ChatGPT API, Google Gemini, Prompt Engineering, Agentic Workflow Orchestration, Python AI Pipelines

Cloud & Infrastructure: AWS (EC2, IAM, CloudOps), Microsoft Azure, GCP, Linux CLI, NAS/SAN, Security Hardening, IT Asset Management

DevOps & Development: CI/CD (Azure DevOps, GitHub Actions, GitLab CI), Docker, HTML/CSS/JavaScript, WordPress, Azure DevOps

ITSM & Security: ServiceNow, Jira, Salesforce, Freshservice, Auth0 SSO, CSP/HSTS, SCORM, AICC, OSHA 30, Incident & Change Management

AI & AUTOMATION EXPERTISE

- Implemented Agentic AI solutions using n8n, CrewAI, LangChain, and custom Python pipelines for automated decision-making, multi-step workflow orchestration, and intelligent business process automation.
- Integrated Microsoft Copilot, ChatGPT API, and Google Gemini into analytics workflows to automate reporting and insight generation, reducing manual effort by ~35%.
- Designed advanced prompt engineering workflows to optimize AI content generation pipelines, improving output accuracy and team productivity across business functions.
- Built AI-driven industrial and IT training video generation/editing workflows for enterprise and LMS use cases, cutting content production time by 50%.
- Developed Python-based AI automation scripts for data cleaning, transformation, visualization, and automated insight generation deployed across production analytics workflows.

PROFESSIONAL EXPERIENCE

Senior IT Analyst

Think Power Solutions — Dallas, TX, USA (Remote) | Hyderabad, India | Dec 2024 – Present

- Architected 10+ enterprise Power BI dashboards using Microsoft Fabric and OneLake, integrating SQL-based ELT pipelines and advanced DAX measures — reducing manual reporting time by ~40%.
- Designed and deployed Python-based ETL automation scripts that cut data preparation time by 30%, enabling faster analytics delivery to business stakeholders.
- Built and maintained CI/CD pipelines using Azure DevOps and Docker, supporting consistent, automated deployment across 5+ application environments.

- Administered LMS platform for 500+ users (SCORM/AICC/OSHA 30 compliant), automating course expiry and provisioning workflows — reducing admin overhead by 25%.
- Implemented Auth0-based SSO and enterprise security headers (CSP, HSTS, Referrer-Policy) across internal applications, strengthening compliance posture.
- Managed AWS (EC2, IAM), Azure, and Microsoft 365 environments serving 200+ users, maintaining 99.5%+ platform uptime.
- Produced AI-driven industrial and IT training videos using AI-powered editing tools, improving learner engagement and accelerating content delivery by 50%.

Lead Technical Specialist

SIFF Ventures Pvt. Ltd. | Bangalore, India | Apr 2024 – Nov 2024

- Directed end-to-end IT operations including data analysis, cloud administration (AWS, GCP, Azure), and infrastructure support across a 150+ user environment.
- Led and mentored a team of 8 technical engineers, serving as the final escalation point — maintaining 98%+ SLA adherence across 300+ monthly tickets.
- Designed Power BI, Tableau, and Google Data Studio dashboards tracking 5+ operational KPIs, replacing manual reporting and saving ~5 hours/week for leadership.
- Automated Freshservice ITSM workflows using AWS Lambda, reducing average ticket resolution time by 20% and improving SLA compliance.
- Managed NAS, SAN, and network switch assets, improving IT asset lifecycle management practices and reducing unplanned downtime.

Lead Technical Engineer

SIFF Ventures Pvt. Ltd. | Bangalore, India | Apr 2023 – Mar 2024

- Led technical support team handling IT infrastructure, incident resolution, and SaaS integrations — consistently meeting SLA targets across complex multi-platform environments.
- Supported ETL processes and database administration (SQL, MySQL, P6 DB), enabling accurate reporting and data validation for business operations.
- Enhanced cloud security through AWS IAM policies, Azure access controls, and VPN-based access management, reducing unauthorized access incidents.
- Coordinated technical project rollouts for new tools and systems, ensuring zero-downtime deployments across the organization.

Senior Technical Engineer

SIFF Ventures Pvt. Ltd. | Bangalore, India | Jul 2022 – Mar 2023

- Managed IT support operations, resolving escalations across Microsoft 365, AWS, and network infrastructure for 100+ users.
- Delivered Power BI reporting dashboards for management, improving data visibility and enabling faster operational decisions.
- Administered NAS, SAN, Freshservice, and Freshdesk asset management systems, maintaining accurate asset tracking and reducing loss incidents.
- Trained and mentored junior engineers on ITIL processes, troubleshooting methodologies, and system operations.

Technical Specialist

SIFF Ventures Pvt. Ltd. | Bangalore, India | Apr 2021 – Jun 2022

- Provided technical support for Office 365, Freshworks CRM, and cloud platforms — handling 80+ tickets/month with a 92%+ first-contact resolution rate.
- Managed IT assets, network devices, and implemented monitoring processes to improve infrastructure stability.
- Built knowledge base documentation that reduced onboarding time for new engineers by 30%.

Operations Associate

SIFF Ventures Pvt. Ltd. | Bangalore, India | Dec 2019 – Mar 2021

- Coordinated day-to-day IT operations across systems and SaaS tools, supporting cloud adoption initiatives (AWS, GCP) and Office 365 rollout.
- Built Excel dashboards and Freshservice-based trackers for operational reporting, compliance monitoring, and workflow visibility used by management.

- Developed SOPs that standardized 12+ recurring processes, improving team consistency and reducing onboarding time for new hires.

EDUCATION

Minor in Artificial Intelligence — Indian Institute of Technology (IIT), Ropar | Aug 2024 – Aug 2025

Bachelor of Technology — Punjab Technical University, Jalandhar | 2014 – 2018

CERTIFICATIONS

- Oracle Cloud Infrastructure 2023 Certified Foundations Associate
- Data Analyst — Cisco
- AWS Certification — SkillUp
- Google Cloud Platform (GCP) — SkillUp
- Tableau Desktop Specialist — FTCCI
- Google Looker Studio Certification
- Power BI: Dashboards for Beginners
- ManageEngine Certified Product Associate — Log360
- Prompt Engineering — Great Learning
